Subject: ORD Study Samples

Bob - I looked into the issue raised today regarding the ORD samples being done in Dimock. The Region III lab at Ft. Meade is one of three labs that are doing sample analysis. We have 54 samples that we are testing just for glycol. The results are scheduled to be done by Jan. 6th per the 60 day agreement we have with ORD. The other two labs are looking at metals and organics (I think). The samples we have are identified by a number and a County. I can look to expedite the Dimock samples if we can find out which sample they are.

Thanks - Shawn
